Mr. Wm. Brewster,
Cambridge, Mass.

Dear Sir:

I am studying the skunks (genus *Mephitis*) and am desirous of obtaining the loan of four specimens from Ogden, Utah, mentioned by Dr. Coues in his "Fur Bearing Animals" (Nos. 416, 417, 418, 419)

If it is possible to send me these four skulls, I should be greatly obliged. They could be mailed under the enclosed penalty envelope, and will be promptly returned.

Very truly yours
Arthur H. Howell.

Your letter of recent date is at hand. It is not yet too late to use the skunk skulls from Ogden, and I would be pleased to have you send them to me by mail if you can do so without great inconvenience.

Yours very truly
